

Northern Pacific Late 19th Century Freight Pack for RS.com's RailWorks by Golden Age of Railroading

The NP 19th century freight pack comes with six models in various configurations: you have an outside-braced and a double sheathed boxcar, a stockcar, flatcars with various loads, tankcars (converted flatcars) and a 24ft caboose. All freight cars are 'proto-lanced' models, in other words they are not modeled after any particular prototype, but their general appearance and details are modeled to look like typical freight cars from the late 19th century. The caboose, however, is a model of a real-world NP caboose.

Purchase, Shipping and Returns, Troubleshooting:

On our website you will find an ["Buy Now"](#) button next to each item which is for sale. Clicking on these buttons will add the selected items to a PayPal shopping cart, which will open in a new browser window. You will not purchase anything yet by clicking the ["Buy Now"](#) buttons. To actually buy the products listed in your cart, please click the ["Proceed to Checkout"](#) button on the Paypal shopping cart window.

Golden Age of Railroading only accepts [Paypal](#) as method of payment.

Your order will be shipped as a download, typically a Railworks RWP file, after Paypal has processed your payment. The download links will be emailed to you as soon as possible, but please allow up to 24 hours to send the email. If you do not hear from us within this time, please send an email to: support@golden-age-rails.com

Returns: As our products are downloads, we cannot offer you refunds as you cannot return the product. In case our products do not work properly or you encounter problems of any sort using our products, we will of course try our best to find a solution and get things to work as they should.

System Requirements and Installation:

System Requirements: You need to have installed RailWorks, there are no special hard- or software requirements which would go beyond those of the game itself.

Rail Simulator: We do not support Rail Simulator any longer. In some cases it is however possible to install and run RailWorks rolling stock in Rail Simulator, but please be advised that your are doing so at your own risk.

Installation:

1. Download the .RWP file and save it in a secure place on your hard disk – just in case you might have to reinstall the cars at a later time.
2. Launch [RailWorks](#) and select the [Package Manager](#) on the Welcome Screen.
3. Click the [Install](#) button, browse to the file from step one, click [Open](#). The package will be installed now, after which you can already run your new cars in the game!
4. To be able to place the cars in a scenario, you will first have to enable the [object filter](#) (left-hand mid flyout window, button that shows a blue cube with an orange triangle) for developer "GreatNortherner", product "SteamEra"
5. You will now find the cars in the assets browser, listed under "Boxcar 30ft ...", "Flatcar 30ft ...", "Tankcar 30ft..." and "Caboose 24ft..."
6. All cars will be empty right after placing them in the scenario editor. To load a car, double click on it. When it is highlighted in dark red, tick the little 'cargo' checkbox in the right flyout window. You can also do this for entire consists in one go, all you need to do is to switch on the 'consist select' radio button in the lower left flyout window.
